

AeroSpace

AeroSpace: hold Caps Lock. Add Shift for the second layer.

Caps sends Ctrl + Option + Cmd. Press Shift separately.

Caps + Escape

Pause / resume tiling

Apps and workspaces

Key	Caps + key	Caps + Shift + key
B	Default browser in B	Show workspace B
C	Claude in C	Show workspace C
E	Sublime Text in E	Show workspace E
G	ChatGPT in G	Show workspace G
M	Typora in M	Show workspace M
S	Spotify in S	Show workspace S
T	Ghostty in T	Show workspace T
0-9	Move this window there and follow	Show workspace 0-9

App shortcuts open or activate the app. Focus and the pointer follow.

Arrows: ← ↓ ↑ →

Shortcut	Action in the arrow's direction
Caps + arrow	Move focus
Caps + Shift + arrow	Move the window / move it out of a group
Caps + Fn + arrow	Group with the neighboring node
Caps + Shift + Fn + arrow	Swap places with the neighboring window

Layout and switching

Shortcut	Action
Caps + L	Switch tiles / accordion in the current group
Caps + R	Rotate the group: horizontal / vertical
Caps + F	Fill the workspace / restore
Caps + Shift + F	Float this window / return it to tiling
Caps + N	Balance window sizes
Caps + Tab	Previous workspace and back
Caps + Backspace	Remove ALL grouping on this workspace
Caps + plus (+)	Give the window more space
Caps + minus (-)	Give the window less space

Ghostty: separate windows (no Caps)

Cmd + N / Cmd + T	New terminal window
Cmd + Shift + comma	Reload Ghostty configuration

Fn + ← / → / ↑ / ↓ sends Home / End / Page Up / Page Down on Mac keyboards.

Accordion: Left/Right in a horizontal group; Up/Down in a vertical group.

Pause reveals hidden workspace windows. No windows are closed.

Resize keys (+/-) use Swedish positions. See README for other layouts.
